

Marine Exchange of Alaska

Membership

Marine Exchange of Alaska's (MXAK) initiatives, services and programs are funded by membership dues, fees for vessel tracking, consulting services provided and government grants. MXAK's maritime advocacy efforts are directed towards minimizing the cost of complying with regulatory requirements while aiding safe, secure, efficient and environmentally responsible marine operations. Our 7 day, 24 hour Operations Center, informational web site, newsletters, vessel tracking network and access are also partially funded by membership dues. Presently membership is comprised of almost all segments of the Alaska maritime community including ports, pilot organizations and various waterfront facilities, as well as operators of tugs and barges, cruise ships, passenger vessels, offshore supply vessels, fishing vessels, tankers and container ships.

Membership Levels

General Membership: This \$1000.00 a year membership level applies to operators of vessels and facilities that directly benefit from MXAK's services and advocacy efforts. General Members are entitled to free technical advice in complying with Coast Guard, State and DOT safety, hazardous material, environmental and security regulations as well as reduced rates for the conduct of audits, preparation of security, safety and environmental plans, and other assistance. Members are also entitled to two logins in the Marine Exchange's vessel tracking display PACTRACS 2.

Associate Membership: This \$500.00 a year membership applies to maritime services providers that benefit from MXAK's maritime network and services. Associate Members are listed on the Marine Exchange web site and entitled to one login in the MXAK's vessel tracking display PACTRACS 2.
